University of Wisconsin-Extension

What are the Laws?

Tractor and Machinery Certification is mandated by Federal legislation for any youth 14-15 years old working on a farm not owned or operated by the youth's parents or legal guardians and who are operating tractors over 20 PTO horsepower and/or certain farm equipment.

In Wisconsin, any farm youth under the age of 16 are prohibited from operating agricultural machinery on public roads unless they have completed a Tractor and Machinery Certification Course. A law signed by the Governor in 1998 sets a lower age limit at youth 12 years of age to become certified in tractor and machinery operation.

Class #	Format	Date	Time	Register
