

**Questions to be answered through study - All of these questions have been addressed through the comprehensive study.**

1. What current and future decisions need to be made while monitoring declining enrollment? **(pages 1-2)**
2. Would the Zielanis building be able to house all elementary students and meet the needs of all learners? **(pages 3-4)**
3. What would average class sizes be if the elementary schools merged? **(page 4)**
4. What is the cost per student at Meeme? Zielanis? **(pages 5-6-7)**
5. What dollar amount could be saved by closing an elementary building? **(page 7)**
6. What are the ramifications of closing an elementary school? **(page 4)**
7. Does the Meeme Charter contract continue? **TBD based upon data provided**
8. What are the advantages or limitations of charter status? **(see Addendum G)**
9. Would dividing boundaries help elementary enrollment at both schools? **No longer applicable with school choice**
10. How many teachers would potentially be reduced if the two schools merged? **(page 4)**
11. Would there be a need for building remodeling or additional expenses if the elementary schools merged? **(Scenario #4, page 4)** Are these short-term or long-term expenses? **Both**
12. Are there other viable solutions for both elementary schools? (i.e grade reconfiguration, early childhood center, Alternative school, Agriculture project-based school?) **(page 8)**
13. What is the impact on transportation costs if the schools merged? **TBD**
14. Will elementary programming be offered in one or two buildings? **TBD BASED UPON DATA PROVIDED**
