

# KIEL AREA SCHOOL DISTRICT

## STANDARDS

In the Kiel Area School District, Academic Standards are used to meet the district vision: *“Ensure all students receive a personalized, comprehensive, future-focused education where students are empowered to become leaders in their learning.”*

The Kiel Area School District utilizes the Wisconsin Academic Standards to set high expectations for student performance and outcomes in order to prepare our students to be college and career ready.

Standards serve as goals for teaching and learning. Setting high standards enables students, parents, educators, and community members to know what students should have learned throughout their K-12 experience. KASD teachers identify the essential standards that all students will need in their future. Teachers use a variety of assessments to measure those essential learning targets. Teachers are working to create “I Can” statements in student friendly language so that students can easily understand how their learning connects to assessments.

### [What are Wisconsin Academic Standards?](#)

Wisconsin Academic Standards specify what students should know and be able to do in the classroom. Wisconsin has academic standards for separate content areas. Visit the DPI content websites below to learn more and access the standards for each content area:
